Captain O G. Curley has become associate editor of the Bainbridge Sun.

The North Alabama Railroad is to go to Bowden, on payment of $20,000, which amount the citizens of Bowden propose to pay.—*Palmetto Gazette.*

Mr. Peter Carroll, of Chattooga, was in Rome on the 23d instant. He has only been married once and has twenty-four children. We challenge the press of the entire State to beat this.—*Rome Commercial.*

Sickness continues to prevail in all portions of Newton county. The Methodist Church of Covington will, perhaps, be provided with an organ. Jim Winny, colored, was caught while in the act of stealing money from the drawer of Dr. Pitts, of Covington.—*Georgia Enterprise.*

The grand jury of Morgan county recommended the organization of a County Court, and fixed the salary of the Judge at $500 per annum. They are to have a calico soiree in Madison, the night of the 2d of April. A little son of Mr. Vason, of Madison, was kicked by a horse a few days ago, and received an ugly gash in the face. The merchants of Madison complain of dull times. *Appeal and Advertiser.*

Seven car loads of iron for the North and South Railroad have arrived in Columbus. It is very probable a large cotton factory will be built soon on the site of the Palace Mills. Colonel Mott proposes to give in the site for stock, and we hear another gentleman has proferred to secure $50,000, and others quite large sums. Hamilton Female College, in Harris county, was totally destroyed by fire on Friday last. The loss is estimated at from $5,000 to $7,000. No insurance.—*Columbus Sun.*

The Rev. S. H. Greenleaf has been elected President of the Bible Society of Blackshear. The size of the Appeal has been reduced four columns for the summer season. Brunswick is negotiating a savings bank. Wm. T. DuBignon, Esq., has been unanimously re-elected marshal of Brunswick. The boys are velocipede riding in Brunswick. There are 302 scholars in daily attendance at the white public schools of Brunswick, and 257 at the colored schools. Besides these, there are two night schools for the colored people, one having 30 and the other 27 scholars.—*Seaport Appeal.*

Eugene P. Belcher, Edwin Belcher and John F. Quarles, of Augusta, have been enrolled as Attorneys, Solicitors and Counsellors of the Supreme Court of South Carolina. President Magrath and Vice President Tyler, of the South Carolina Railroad, were in Augusta on Thursday, and met President Wadley and Superintendent Rogers, of the Central Railroad, the four officials holding a consultation at the Planters' Hotel on Thursday night. The object of the conference is not known, unless it was held, as some suppose, for the purpose of taking some action with regard to the aid extended by the Georgia to the Port Royal Railroad.—*Chronicle and Sentinel.*

Mr. John S. Shipley, of Conyers, the Supervisor, of the Georgia Railroad, received a severe wound in his foot on last Friday, by the accidental discharge of a shot gun. A little negro girl was burned to death in Conyers a few days ago. On Monday last L. S. Grangier and A. A. Smith, were severely cut in Sheffield, by George and Tom Wilson. Conyers is still improving. The town now has four churches, two Baptists, one Methodist and one Presbyterian. New buildings are daily going up, and still the demand for houses is not satisfied. The Atlantic and Great Western Canal, when completed, will run in a mile and a half of the depot.—*Conyers Examiner.*

It is rumored that certain capitalists, who are not slow to avail themselves of an eligible location, have decided to erect a grand hotel in Savannah shortly, so that by next winter those who may chance to visit Savannah will find ample, if not the best hotel accommodations that can be found anywhere outside of New York. A fire alarm bell has been ordered from Troy, New York, for Savannah. It is of six thousand pounds capacity, and is to be placed as nearly as possible in the center of the city. On Friday night last, the store of Joseph Volasky, of Savannah, was entered and robbed of goods, in all, valued at $300. A woman was thrown from a second story window by a sailor, on Saturday. The only damage was she was stupefied from the sudden jolt.—*Advertiser.*

On the night of the 14th three negroes went to the house of a respectable lady of Jackson county and demanded admission. Suspecting at once their object, she sent her daughter through the back door to her grandmother and raised the alarm. A negro saw and pursued her, knocked her down and attempted to outrage her but failed in his fiendish purpose. Meantime, a tenant on the place heard the noise and went to their assistance. The negroes fled. A tree fell on a little boy, son of Wm. Potts, deceased, about nine years old, near Jefferson on Tuesday, and killed him instantly. At the regular meeting of the Directors of the Northeastern Railroad on the 21st instant, it was resolved to proceed at once to the permanent location of the road on the Harmony Grove line, and the Directors offered to advance the expenses of location. It is considered that this settles the construction of the road, and the company will be ready in a short time to receive proposals for contracts.—*Athens Banner.*

South Carolina News.

Large fires have been raging in the woods around Aiken.

Wm. Bates, Esq., of Greenville, and the founder of Batesville Factory, is dead.

The State Sunday School Convention will be held in Charleston on the 15th day of May.

The National Bank of Greenville has commenced operations, with Mr. Blackwood as cashier.

A fire occurred at Union a few days ago, destroying both hotels and other buildings. Loss $75,000.

The South Carolina Presbytery, of the General Assembly Presbyterian Church, South, will convene at Abbeville on the 10th of April.

So much guano has been ordered this season that the Charleston agents of some of the phosphate companies are sending word to their agents to stop taking orders, as it is impossible to supply the demand.

The State Treasurer, not having the funds on hand to cash Legislative certificates, upon the adjournment of the General Assembly, gave members and subordinate officers orders on the treasurers of their respective counties.

Legal Intelligence.

One means which the drinkers of Illinois are proposing to take to avoid the penalties of the new temperance law is to get a written permit from their wives relinquishing in advance all claims that may arise in consequence of drinking.

DECISION RELATIVE TO FORGED CHECKS.—The Supreme Court has recently rendered an important decision in the case of the Bank of North America vs. E. D. Bangs et al., of Boston, relative to the responsibility of banks for forged checks accepted by them. By the decision it would seem that a bank may make reclamation on a party depositing a check which proves to have been forged at any subsequent time. Heretofore the impression has prevailed that after a bank has paid a forged check the responsibility rests with it, and the reverse decision of the Court is not accepted with general satisfaction.

Governmental Items.

Letters received at the dead letter office during December, 1871, were 334,578, of which 182,832 were returned to writers or forwarded to parties addressed.

The United States navy now consists of 179 vessels.

There were in the service of the Post-office Department, June 30, 1871, 7,286 contractors for transportation of mails.

OUR WASHINGTON LETTER.

The Japs Maligned—A Dull Season—Lent Dots—All Sorts.

WASHINGTON, March 22, 1872.

THE JAPS.

Our oriental visitors have been much malinged by vivacious, but far from veracious, correspondents. They are a quiet, observant, well-mannered set, and have conformed to our customs with remarkable aptitude. The statements that they live on hard boiled eggs and ice cream, and smoke opium all day long, are utterly false. They appear at our places of amusement, and at the receptions—I do not classify receptions with amusements, for they are serious affairs—dressed like one of us, and though few of them can speak or understand our language, I am confident they do a good deal of thinking. Several of our retail dealers have told me that they seem to have quite got the hang of our currency, and are very shrewd in making their purchases.

THE LOBBY BAFFLED.

It is evident that but few jobs will be consummated during the present session of Congress. This is not because of any access of virtue on the part of our National legislators, but because the pending Presidential contest necessitates a semblance of virtue, and of watchfulness over the public interests. Within the past few days the St Croix Railroad land stealing fraud, the Pacific mail subsidy swindle, and the Yuba Buena fraud have been defeated in the House, and are likely to meet a similar fate in the Senate. The Senate, as a rule, has been more prolific of jobbery than the House, but even that body now feels the necessity of compromising somewhat to public sentiment, and of escaping the criticisms of an independent press.

THE SEASON

in Washington has thus far been one of the dullest and most disagreeable for many years. The weather has been particularly inclement, and for the past few days a gale of wind has prevailed, with an Arctic temperature. Our supply of coal is running short, and there will be a famine in this article soon unless the weather becomes milder. Add to these drawbacks the continued spread of small pox, of which we are likely to have an epidemic, and the prevalence of malarial fevers, and it will be seen that there can be very little enjoyment at the capital just now.

LENT

is pretty generally observed here, at least so far as social entertainments go, the heads of the government setting the example by discontinuing their receptions during this season. The devotees of fashion also find this intermission in the round of gaities very agreeable, as during "the season" it is not unusual to attend half a dozen entertainments during the day and evening, commencing with morning receptions, with or without dancing, to be followed by dinner and evening parties and grand balls. As soon as Lent is over these festivities will be resumed and participated in with zest until the heat of summer drives our fashionables to the watering places.

MERE INVENTIONS.

I see you have published what purports to be a letter from Judge Davis accepting finally the nomination of the Labor Reformers for the Presidency. I exposed this forgery in my letter of the 15th instant. Judge Davis has written no such letter. He does not even consider himself bound to any party. He says that if a man of his known principles is desired by the people as a candidate for the highest office in their gift, he is at their service. A look at his telegram on receipt of advices that he had been nominated by the Columbus convention will show his position at a glance.

ANOTHER CANARD.

During the interviews of the rival Louisiana delegations with the President, Secretary Boutwell, who was present, let fall a remark which was construed as indicating his hostility to Collector Casey and United States Marshal Packard, who have had the support of the President all along, Casey being a brother-in-law of Grant. Later in the day a Bohemian met Secretary Boutwell coming from the White House, and fancied he looked angry. Putting this and that together he concluded that a rupture had taken place between the President and the Secretary on the Louisiana matter, and so he set afloat a report that Mr. Boutwell had been asked to resign. Of course there is nothing in it, but this is a fair sample of how certain Bohemians in Washington manufacture news.

CONGRESSIONAL NOTES.

In the House yesterday Mr. Speer presented petitions from N. H. Woodward, of Butts county; Charles W. Thomas, of Fulton county, and John T. Rawson, of Spalding county, asking for the renmoval of their political disabilities.

Mr. Whitely presented a memorial from certain citizens of Georgia asking that a monument be erected over the remains of 14,000 Union soldiers, who died and are buried at Andersonville.

The Daily Constitution
OFFICIAL JOURNAL OF THE STATE
OFFICIAL JOURNAL OF THE COUNTY.
THE LARGEST CITY, COUNTY AND STATE CIRCULATION, DEFIES REFUTATION.

Morning Edition.

ATLANTA:
TUESDAY, MARCH 26, 1872.

To Lawyers.—A full report of the decisions of the Supreme Court is furnished to The Constitution exclusively, by the Reporter of the Court.

To Subscribers.—We have determined to enforce, rigidly, the cash system. When your paper stops you know the reason—your subscription is out. We cannot and *will* not give our paper away.

To Correspondents.—We do not read anonymous letters and communications. The name and address of the writer are indispensable. Rejected communications we cannot undertake either to return or preserve.

Where They Came From.

A correspondence between Henry Clews and Governor Bullock, published in The Atlanta Constitution, proves conclusively that the recent editorials of the New York Bulletin on Georgia credit, were written in the office of Clews, and under his dictation if not by himself. This is "independent journalism."—*Savannah Republican.*

☞ The Constitution, Atlanta, has been dealing Henry Clews & Co., some heavy blows, and we hope, spiked his guns. Clews is a New York sharper, who manipulated Georgia bonds for Gov. Bullock and had the said Governor remained in power another year, would have made a big thing of it. But Providence interfered and saved the State and tax payers from the immense swindle, wisely and justly exposed by The Constitution.—*Mosely's Rome Weekly.*

The Railroad Ticket Agents' Convention at Louisville.

To-day the Railroad Ticket Agents' Convention meets in Louisville. Among those who have gone from Atlanta are Mr. S. E. Crittenden, the proprietor of the Kimball House, and Mr. B. W. Wrenn, the general ticket agent of the State Road, to induce the Convention, if possible, to hold its October session in Atlanta.

We trust that these gentlemen may succeed. Atlanta will give a cordial greeting to the railroaders, and endeavor to make their stay here pleasant.

An Englishman's Opinion of General Lee.

Blackwood's Magazine for March contains a sketch of General Lee which will be read with avidity by the people of the South. It appears to have been suggested by Major John Esten Cooke's Life of the great Southern soldier. The estimate placed by the author upon General Lee, both as a man and soldier, is very high—much higher than will be agreeable to the Northern people. The writer of this sketch, influenced no doubt by his English sympathies, places two English generals, but not a single American general, before him. He says that he "will, in spite of his defeat, be pronounced the greatest soldier with two exceptions (Marlborough and Wellington), that any English-speaking nation has produced." Speaking of General Lee as a man, the author pronounces him "the noblest son to whom the North American Continent has hitherto given birth."

Railroad Committee.

The committee appointed at the last session of the General Assembly, to investigate the affairs of the State Road under the Blodgett administration, from reports, are hard at work.

They have traveled the entire length of the road, and have sworn many persons in regard to wood and cross-ties placed on the road. It seems that Hoyt, the Supervisor, consumed a large quantity of wood and cross-ties, and the committee are trying to determine how much was put upon the road and how much was placed to the credit of Hoyt that was never put upon the road.

It seems that Hoyt had a way of charging up wood and ties that were never delivered, and of pocketing the money, hoping that the mythical individuals would never turn up, and that he would be enriched at said mythicals expense.—*Moseley's Rome Weekly.*

Georgia Crop News.

Newton county wheat looks badly. The middle Georgia planters assert that the season is fully six weeks later than usual.

Hart county is in a good fix financially, says the Athens Banner. It has the cotton fever though. Fodder is scarce. Few crop liens for fertilizers and food. The wheat crop, though backward and not large, is fine, and stand stands are excellent.

The Calhoun county crops are generally backward, owing to bad weather.

In Ware county the ground is so wet that it will be sometime before the farmers will be able to plant.

The Palmetto Gazette says corn planting has begun, but not enough for supply. The farmers have large cotton crops on the brain.

The Early County News has inquired generally in that county, and finds that most of the planters will run lightly on cotton and plant provisions plentifully.

Henry Clews Proved by His Own Letter to have been Knowingly Connected with the Brunswick and Albany Railroad Bond Frauds.

The Georgia press is discussing the question as to whether Henry Clews was knowingly connected with the Bullock bond frauds. It is a grave question in view of the large amount of securities negotiated by Mr Clews and should be discussed, in justice to all parties, with great care and close adhesion to facts. The Georgia public do not desire to do any one injustice, and will not do so knowingly.

We have some important proof that Mr. Clews was knowingly connected with the Albany and Brunswick Railroad bond fraud.

On the 7th of April 1871 his firm wrote the following letter to Governor Bullock:

Banking House of Henry Clews & Co., 32 Wall Street, New York, April 7, 1871.

His Excellency Governor Bullock:

Dear Sir—We forward per express, this p. m., 50 bonds $1,000 each, Brunswick and Albany Railroad for the State indorsement. Please do the needful and return to,

Yours truly,
Henry Clews & Co.

Numbered from 1551 to 2600.

Bond number 2,600 represents the sum of $2,600,000. Divide this by $15,000, the indorsement per mile, and we have the bond number 2,600 representing part of the indorsement due on the 173d mile. This was April 7th, 1871.

Colonel Taylor, the Engineer, in his letter to The Constitution some time back, stated that he had given no certificate of the completion of any part of the road until October, 1871, when 170 miles of the road to Albany were done. And he testified before the committee that from February to October, 1871, he made no report and gave no certificate of the completion of sections of the road.

Yet here we have Henry Clews & Co., in April 7, 1871, *six months before October*, when the Engineer reported the road only done to Albany, sending the road bonds to Governor Bullock for the State's indorsement, and asking and getting the said indorsement, on three miles of road beyond Albany. He thus applied for indorsement on the road beyond Albany six months before the road reached Albany by the engineer's report.

It would be hard to furnish more damaging evidence to prove Clews' complicity with Bullock in this great bond fraud. Not only did he have notice of the fraud, but he actually sought its perpetration.

It will be remembered that in June Bullock dispatched Clews the statement denied by Taylor, that 184 miles of the road was done, Clews had published this statement broadcast. Yet two months before Bullock made the statement Clews was seeking the State's indorsement for unfinished road, unreported finished, and according to the Engineer's report, not finished until six months afterward.

We leave our readers to draw their conclusions. We present the facts for the public and the committee.

Light Melange.

I.

ARE NAUGHTY PEOPLE EVER BURIED.

It is still very difficult to discover where the bad people are buried. The cemeteries are still symbolically white with monuments to the departed. Shylock and Ralph Nickleby are still, upon their tombstones, the most respected of deceased citizens. Here lies Clytemnestra, a model of the wifely virtues whom an inconsolable spouse deplores. Beneath this marble, in the tranquil hope of a joyful resurrection, repose the remains of Iago, who kept the noiseless tenor of his way. Beyond sleeps Solomon, most faithful of husbands; and under this turf of buttercups and daisies lie Paris and Lovelace, *arcades ambo*, too early lost. 'Tis pathetic to reflect how much worthier is the world underground than that which still cumbers its surface; and if we, whose lives are indifferent honest, had only had the good fortune to die a century ago, our memories would by this time have been upon our tombstones a very odor of sanctity to the sense of the age which knows us, perhaps, but too well.

II.

THE PRETTY PETTICOATS OF THE PORT OF PAPIETE.

The women, with their voluptuous figures, their unique, free, graceful walk, their night-gowns (for their dress is nothing but a long chemise, white, pale, green, or red and white, according to the taste of the wearer, which is invariably good,) floating loosely about in a cool, refreshing manner; their luxurious black tresses crowned with a gracefully-plaited araroot chaplet, and further ornamented by a great flowing bunch of white reva-reva; their delicious perfume of cocoanut oil (it is worth going to Tahiti for the smell alone;) and, above all, their smiling, handsome voices, full of soft cadences—all this set off by the broken, scattered rays of green light shining through the shady avenues The most bashful and coy will never pass you without a greeting, a glance of the eyes, and a slight gathering in of her dress with her elbows, to exhibit her buxom figure to full perfection. Or else, perhaps, she will come up coquettishly, and ask you for the loan of your cigar, take a few puffs at it, and hand it back again gracefully to the rather astonished owner.

III.

TENNYSON.

To predict the estimation in which one's contemporaries will be held by posterity is an unsafe proceeding, as all literary history has shown. Still, with this fact before me, I cannot but think that Tennyson will always occupy a high rank among the English poets He does not strike me as being a new force in literature, as Wordsworth and Byron were, but rather as one who perfected what was already in existence when he appeared, although in an imperfect form—a poetic element which I should call the sense of Beautiful He seems to me the perfection of Keats; not the Keats of "Hyperion," that noblest of epical fragments, but the rich, sensuous, young Keats of the "Ode to a Nightingale," and "The Eve of St. Agnes." In other words, his poetry is the most poetical poetry ever written, and he himself is the poet of poets.

OUR BALTIMORE LETTER.

Weather—Death of William Schley—Small Pox the Cause—Caution—What Should the South do in the Next Election—Finance.

Baltimore, March 21, 1872.

Editors Constitution: I notice that your planters who are anxious to be at work are complaining that winter is lingering in the lap of spring. We can make no such complaints here, as we have not yet had spring enough to have any lap. If winter should here undertake such a familiarity with the mother of buds, his seat would be too narrow to give him any comfort. To-day is one of the coldest of the season—the thermometer this morning indicating an approach towards zero which would have been highly creditable to January. On the whole, the winter has been one of unusual severity.

Our city mourns to-day the death of the Hon. William Schley. He was a relative of the Governor of your State who bore the same name, and who in the item of honesty was all that the late Rufus was not. He was also a relative of your present Judge William Schley, of Savannah. Mr. Schley occupied the very first position at the bar of this city. Many years ago he was earnestly solicited to be a candidate for the Senate of the United States to which, at the time, he might have been elected, but he persistently declined, preferring the practice of his profession. It may be said that he fell a victim to a singular prejudice which he cherished against vaccination. He would never submit to this precaution against the small pox, and some two weeks ago he contracted the disease while riding in the cars and died of it yesterday morning.

We have but little of loathsome malady, I am happy to say, in our city. There were but four deaths from this cause last week, a mortality which is very small in a population of 300,000 persons. I could, however, advise your merchants who are visiting Northern cities this spring on business, to renew their vaccination. You are liable to encounter it anywhere. In Philadelphia, since last autumn, they have had some twenty-five thousand cases of varioloid small pox, and about three thousand deaths; and the cry is—"Still they die." One hundred and twenty victims were reported in the bill of deaths for last week. Rarely does one, who has been vacinnated, take small pox. In many cases, however, they have taken the wilder form of the disease, known as varioloid. This, however, rarely has a fatal result where the patient can command good nursing.

Your correspondent, who rejoices in a fierce name, if he is not a fierce man, has kept you well advised, I notice, of what Congress is doing, or rather of what it is not doing. For with the exceptions of the defeat of the amnesty bill effected through the rider superimposed by the Massachusetts negrophilist, and the appointment of a committee to investigate the complicity of the administration with the sale of arms to the Frenchmen, a very small summary would embrace the whole Congressional record. The debate incident to this last measure has developed the fact that there are elements in the Republican party which more than menace its integrity—which insures its disruption unless it is compelled into coherence by some unwise action of the Democrats.

Sumner and a few conspicuous Radicals are now inalienably opposed to Grant. If they can disrupt the party to any extent, and bring out a man in opposition to Grant, the South will then be at liberty to elect between the disputants, and it may be wise for her to confederate with that fragment of the sundered Republicans which promises to do best for her rights. In the event of a division the Democrats will hold the balance of power, and they may be sure of aid and comfort from whatever party they may succeed in installing in power. The thought of an alliance with Charles Sumner, the inveterate and uncompromising enemy of Southern men and institutions, is not at all grateful to high-minded men. But if he and his party can overthrow a dynasty under which you have endured oppression in its most unpitying forms, you may submit to the evil for the greater good it produces. One thing is certain, a straight out Democratic platform will compel a Republican junta of the same stripe. Though Sumner has no elective affinity for Grant, he has less for Democracy, and if a choice must be pronounced between the two he will waive his objections to the present incumbent. If the Democrats should thus compel a union of the Republican elements the latter will assuredly triumph. Then who knows what the South will be compelled to suffer under those laws which "Congress has the power to enforce by appropriate legislation?"

You many rely on Maryland as Democratic from core to outside. Grant and Colfax come over here occasionally, but their visits awaken no enthusiasm. The popular heart here is Southern. Nothing is more common than to see in parlors here pictures of Lee, Davis, Jackson, and other distinguished Confederates, and when the subject is introduced warm expressions of devotion to the South invariably follow, where these ornaments adorn the walls.

Why do you not send some of your city securities to Baltimore for sale? A banking house here informed me that they offered some Savannah 7 per cent. bonds at 85 and sold $25,000 worth in a few days, and expected to sell $150,000 in a short time. Are not Atlanta securities as good as Savannah? Why should the latter command so much more? Baltimore.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON.

Washington, March 25.—Governor Curtin, Minister to Prussia, has resigned.

It is stated that the Secretary of State has sent an energetic note to Madrid against the Spanish Government.

Dr. Howard and Rear Admiral Lee's report from Havana of the 13th, says there is nothing new to report.

The British and American Claims Commission met, and without deciding any cases adjourned until Thursday next. It is understood that there will be very little business of importance before the Commission until next fall. They will meet occasionally, but few cases only will be heard upon their merits before the adjournment over for the summer.

In the Senate, after the unimportant business was finished, the unfinished business, being the tariff bill, came up, when Mr. Chandler moved to lay it on the table to-day, in order to proceed with the bills from the Committee on Commerce.

Mr. Sherman said he would not oppose the motion of Chandler, as to-day had been set aside for the consideration of the bills from the Committee on Commerce. He said he did not know exactly what to do about the tariff bill, in view of the action of the Senate on Friday last. The question was, whether it would be well to await the tariff bill of the House, or to take up and pass the House bill to repeal the tax on tea and coffee. At any rate he suggested now that Senate on to-morrow take up and pass the House bill to repeal the tax on tea and coffee, in view of the uncertainty which prevailed in business circles, for on Friday he had received letters and telegrams from forty leading commercial houses and organizations asking the meaning of the action of the Senate on Friday.

Among the bills introduced in the Senate to-day was one by Ramsey, of Minnesota, to construct and aid in rebuilding the levees on the Mississippi river, and for other purposes; incorporating the Mississippi Levee and Telegraph Company, with a capital of $10,000,000, to construct levees and a line of telegraph from Cape Girardeau, Missouri, to Fort Jackson Louisiana, on both sides of the river, free from State taxation, and with a land grant of twenty sections per mile along the line of said levees.

The National Democratic Committee will meet early in May after the meeting of the Cincinnati Convention to fix the time and place for holding the National Democratic Convention. The time will probably be the 4th of July and the place St. Louis.

In the House the bill for bridging the Ohio river, near Evansville, passed.

The bill for establishing Gulf steamship service between New Orleans and certain Mexican ports passed.

In the Supreme Court a motion for a mandamus in a Kentucky war claim case was rejected.

A motion to suspend the rules and pass a Suplemental Civil Rights bill failed by yeas 98, nays 78, not having two-thirds, but comes up again next Monday.

A bill authorizing the building of the Mexican Gulf Railway was introduced.

The bill authorizing the Baltimore and Potomac Railroad to locate their depot in the heart of the city, failed of two-thirds—yeas 119, nays 62—but comes up to-morrow, when a majority will pass the bill. [This is the Pennsylvania Central vs. the Baltimore and Ohio Railroad.]

The House then adjourned.

Probabilities.—The barometer will continue to fall from the lower lakes to North Carolina, and eastward to the Atlantic. The area of rain will extend northeast over the New England States during to-night. Rising barometer, with northwest winds and clearing weather, will extend from the upper Mississippi valley east over the upper lake region to the Ohio valley and western Pennsylvania, and over the Southern States very generally during to-night and on Tuesday morning, and over the Middle States on Tuesday. Dangerous winds are not anticipated for the Atlantic and Gulf coasts.

NEW YORK.

New York, March 25.—At a meeting of the Internationals a letter was read from Switzerland stating that 207 glass-blowers had been discharged because they belonged to the Internationals. A speaker announced that he had been discharged from a lithographic establishment for Internationalism, and subsequently the whole force quit work. The printers of Toronto sent a dispatch asking the privilege of joining the society. One speaker deprecated making a political thing out of the organization.

LOUISIANA.

New Orleans, March 25.—The southbound train on the Mobile and New Orleans Railroad was wrecked by a culvert giving way near Ocean Springs. Several passengers were severely injured, but none were killed.

Judge Abell, this morning, sentenced Jas. H. Henry, Deputy Constable of the First Justice Court, to three years imprisonment in the penitentiary, for embezzling forty-eight dollars entrusted him by a lady to pay her taxes.

It is has been raining all day.

ITALY.

Rome, March 25.—It is stated that Fredrick Charles, of Prussia, while here advised a re-organization of the Italian army on the Prussian plan

ENGLAND.

London, March 25.—The iron clad thunderer, a turreted vessel carrying four guns, of thirty-five tons each, has been launched.

SPAIN.

Madrid, March 25.—Don Espartero, notwithstanding his declination, has been nominated for the Cortez, from Madrid.

MIDNIGHT DISPATCHES.

WASHINGTON.

Washington, March 25.—The Supreme Court adjourns from Thursday next to Monday, and from May 6th to October 20th.

NEW YORK.

New York, March 25.—The coroner's jury to investigate the death of a lady from laughing gas in a dentist's chair is composed of eleven doctors.

There were one hundred and six small pox cases and twenty-two cerebro spinal meningitis cases in Brooklyn last week.

MEXICO.

City of Mexico, March 15, via Havana. The Government forces have driven the Revolutionists from the cities of Aguas, Calientes, Legos and Zacatecas and relieved the troops at San Luis Potosi.

In the battle of the 2d, Bocha, with 6,000 troops defeated the united Revolutionists with 9,000 men, killing and wounding 700 and capturing 7,000 men and all their artillery except three guns. Martial law exists in twelve States in Mexico.

Gen. Rocha's victory is a death blow to the revolutionary prospects, but anarchy will prevail for a long time.

There is nothing doing in domestic industries, and trade in foreign goods is slight.

Gen. Negrete, with 1,600 men, keeps the States of Puebla, Hidalgo and Tlascala, in constant alarm by his acts of vandalism. He always avoids open engagements, and with his troops attacks defenseless towns, haciendas and railroad trains. On the 3d he attacked a working party on the Apezoco Railroad, robbing the paymaster, employees and taborers, and returned on the 4th and kidnapped John Quin, the Superintendent. On the 8th or 9th he attacked several public trains destroying the freight

General Rocha is accused of shooting many prisoners.

President Juarez receives the congratulations of the press at the capital with the exception of the Feroccarelle. All the newspapers express the belief that the revolution is a failure, although they differ as to the policy of the government.

CUBA.

Havana, March 25.—A letter gives an interview with Mr. Howard, the American physician who has been sentenced to eight years imprisonment at Centa, a Spanish penal island near Gibraltar. He was found in the lower hold of a vessel, dressed in the communist convict duck clothing, an old straw hat and untanned leather shoes, chained to a file of other unfortunates, one of whom was Don Minguel Michado, an old Cuban planter. The Doctor still believes that the United States will yet intercede in an effectual manner for his release from the unjust sentence of the Spaniards.

ENGLAND.

London, March 25.—Marquis Landsdowne succeeds Lord Northbrook as under Secretary of War.

☞ "What time is it, my dear?" asked a wife of her husband, whom she suspected of being drunk, but who was doing his best to look sober. "Well, my darling, I can't tell, 'cause you see, there are two hands on my watch, and each one points to a different figure, and I don't know which to believe."

☞ A darkey says, "All men are made of clay, and like meerschaum pipes, are more valuable when highly colored."

☞ A lady in Aberdeen, Scotland, is more advanced in woman rights than any other woman in Great Britain. She goes regularly to the barber to get shaved.

Mr. H. O. Hoyt.—We learn that Mr. H. O. Hoyt was committed to jail on Sunday evening.

Third Baptist Church.—We learn that this church has called Rev. George R. Moore, of Auburn, to the pastorate of the church.

DeKalb Superior Court.—The March term of DeKalb Superior Court began yesterday. The Criminal Docket will be taken up to-morrow morning.

Returned.—John L. Conley, United States Commissioner, has returned to the city, after an absence of some time attending to his duties in several counties.

Masonic.—Georgia Lodge, No. 96, F. A. M., will hold a called communication this evening at 7½ o'clock. Work in the Master's degree. Fraternity most respectfully invited.

What Does It Mean?—The Sasseen case was thronged yesterday and the Clerks, Geo. ...an and Major Martin, were kept busy all the ... Is another circus organizing?

Mariotti Italian Opera Troupe.—This excellent and justly popular Company will appear at DeGive's on Friday, also on Saturday night. Reserved seats can be procured at Messrs. Phillips & Crew's.

Washed Away.—A private telegram was received here yesterday from Colonel G. J. Foreacre, Superintendent of the Western (Ala.) Road, announcing that the rain had washed up the track in several places. In some places near a mile was gone.

Personal.—Col. S. K. Johnson, Superintendent of the Georgia Railroad, passed through this city last Sunday night, en route for Tennessee, being called to the bedside of his aged mother, who is very ill.

Hon. C. W. Styles is in the city.

Wrong.—The Columbus Sun says: Capt. Candler, of the State Road Committee, examined ... by some waggish member.

It was Senator Candler, but a member of the committee from Southwestern Georgia.

The Ladies composing the Board of Visitors of the Georgia Baptist Orphan's Home are requested to meet this evening at 4 o'clock at the house, corner of Calhoun and Houston streets.

L. G. Crawford, Secretary.

Floatings.—One of the horses in the street cars goes at the rate of twenty miles per hour. A DeKalb County Justice of the Peace feels so good after marrying a couple that he dons his beaver. Only fifteen insurance agents wanted to insure the life of the headless rooster.

Singular.—We learn that two peacocks have gone wild in Gwinnett county, and for the past two years have been seen with a drove of wild turkeys. Somehow, it is impossible to get a shot at them. Where is Major Simmons?

The Street Cars.—The Marietta street line runs out as far as the Rolling Mill, and charges five cents. The line to West End charges ten cents to West End and five cents to the Barracks. We learn that it is in contemplation to make the fare uniform—five cents for all the lines. We think this will pay the company handsomely.

Death of Mrs. G. B. Chamberlin.—Mrs. Chamberlin, wife of Deputy United States Marshal Major George B. Chamberlin, died on Sunday night, at 11 o'clock, of typhoid pneumonia, after an illness of one week. She was a native of Brighton, Mass. Her remains will be taken to the house of her mother, near Boston. A long line of carriages followed her remains to the train yesterday afternoon.

United States District Court—Hon. John Erskine, Judge Presiding.—Court met yesterday. A number of cases on the Criminal Docket were called, but not being ready for trial, went over. A number of bonds were forfeited. The case of the United States vs. N. C. Tank, illicit distillation, was set down for trial this morning. Court then recessed until ten o'clock this morning.

State Road Suits.—We learn that A. L. Harris, in the case of the State vs. the Scofield Rolling Mill Company, L. Scofield, W. D. Cook and himself, has made an affidavit similar to that made in the same case by Lewis Scofield. W. D. Cook has also made a similar affidavit. In the case of the State vs. A. L. Harris, the defendant has also made a like affidavit. In all these instances, notice has been served on the informer, C. P. McCalla, to give bond.

Bold Burglary.—On Sunday night some one effected an entrance into Mayson's auction room, under DeGive's Opera House, by taking out a pane of glass from a window in the rear. The glass was taken out neatly—putty and all. The party or parties effected an entrance into the show case by prying open the door with a sharp pointed instrument, and carried away fifteen or sixteen silver watches. Nothing else has been missed as yet. A few nights before that two gold watches were stolen out of the case. Two parties were arrested on suspicion, but discharged, as there was no evidence against them.

Our City Sexton.—The Monroe Advertiser says:

"Up in Atlanta the city sexton demands his fees for interments on the spot, and before the echo of the falling clod upon the coffin has died away upon the ears of weeping mourners. That official means business."

Our esteemed contemporary does a grave injustice to our worthy City Sexton. He discharges his duty to the city with great fidelity, and great courtesy to all who have to do business with him.

Perilous and Daring Feat.—On Monday the 18th instant two fox dogs belonging to a Mr. Knight, of Gwinnett county, ran a fox to Stone Mountain. While near the site of the old tower, they disappeared from sight. Later in the day parties living near what is termed the "steep side" were startled at hearing dogs barking and howling, and after looking closely could see them, about two-thirds of the way up, apparently on a crag jutting out from the perpendicular wall. One of them, who was considerably below the other, was seen to fall and roll over, but succeeded in regaining his foothold. The dogs stood there until Wednesday noon.

The following gentlemen went to the top of the mountain to see if means could not be devised to rescue the dogs: A. C. Nesbit, W. R. Wells, J. H. Kimball, J. B. Steward, S. H. Pickens, B. F. White and F. P. Juhan, Jr.

By means of a rope tied to a strong cedar, the party reached a point nearly 500 feet from the site of the old tower—a point never reached before, we believe. Here the rope was fastened to another cedar. Several had agreed to make the descent but backed out. Ferdinand P. Juhan, Jr., declared his willingness to make the perilous descent. He pulled off his boots and walked down, holding on to the rope, several hundred feet. At the distance of about 600 feet he found the first dog and soon had him safely landed. At a point 80 feet from the tree, in a bench in the rock wall, several feet in length and one or two in width he found the last dog. This one resisted at first, but when he reached a place where he could walk, he went cautiously but steadily until he got to the top. As soon as Mr. Juhan got up, the dogs fawned on him, jumped in his lap, and exhibited their gratitude in an unmistakable manner.

The wind was blowing very strong at the time. Mr. Juhan acted with great coolness. His socks were worn out by friction against the rock, and he stopped and pulled them off.

The dogs had worn off the claws from their hind feet. It is supposed that they reached the spot from which they were rescued by going through a crevice in the rock. Two colored men assisted in the work.

Judge Dean improvised the following on the occasion:

Drive and Lead were the two,
Back and side were speckled blue,
After deer they did their part,
After fox they broke their heart.

This is certainly the boldest and most perilous feat ever accomplished at Stone Mountain, and places Mr. Juhan among the daring men of the age.

On the next day Mr. Juhan made an ascent into the matrimonial state by marrying a beautiful and accomplished young lady. Which of the two is the most perilous we leave our readers to determine. With many the matrimonial rope either breaks or strangles the party.

Miscegenators Come to Grief.—William Henry (colored) and Fannie Sockwell (white) were arraigned before Justice Smith yesterday on the charge of miscegenation. The parties don't deny living together for the past two years, but claim that they were regularly married by Rev. C. Dunlap in accordance with a license issued by the Ordinary. The woman admitted that she blacked her face and wore several veils to disguise herself and deceive the parson. It is said the parson discovered the imposition and tore up the license declaring the marriage null and void. Justice Smith committed them both to jail.

Ticket Agents Convention.—The following gentlemen left on Sunday night and yesterday morning to attend the annual Convention of General Ticket Agents at Louisville, Kentucky:

The Georgia Medical Companion.—The March number of the above journal is on our table. Dr. W. T. Taylor, of Kentucky, contributes an original article on the "Cause and Treatment of Obesity." The writer thinks that obesity can be diminished without injury to the health.

Dr. E. Van DeWarker, of New York, has an interesting article on "Necrosis with Spontaneous Resection of the Lower Maxilla."

"Chronic Otorrhœa" is the title of a well written paper by Dr David Webster, Surgeon to the Manhattan Eye and Ear Hospital of New York.

Dr. Robert Robson, of Indiana, furnishes some excellent "Remarks on Neuralgia."

The table of selected articles contain an epitome of knowledge. We are pleased to learn that the success of this journal is unprecedented in the history of medical journals of the South. Terms $2 per year in advance. Drs. T. S. Powell and W. T. Goldsmith, editors.

ATLANTA City Hospital.

THE need of a CITY HOSPITAL for Atlanta has long been felt, but all efforts heretofore for the establishment of such have failed, our people being too poor to raise the money necessary for such a purpose, and the depleted condition of our State Treasury being such as to render successful legislation in the matter both impracticable and hopeless.

It is, therefore, proposed to appeal to all friends of so benevolent a project, and thus secure a nucleus to encourage an increase of the private donations already promised, which will render the scheme a success; and while the erection of such an Institution will be an enduring Monument to the Charity and Liberality of our citizens, it will also be in keeping with our onward march in the cause of

Civilization and Progress.

For every Two Dollars subscribed, an equal interest will be given the holder of Certificate thereof in the distribution of

HEALTH! BEAUTY!!

Strong and Pure Rich Blood—Increase of Flesh and Weight—Clear Skin and Beautiful Complexion Secured to all.

Dr. Radway's Sarsaparillian Resolvent

Has made the most astonishing Cures; so quick, so rapid are the changes the Body undergoes, under the influence of this Truly Wonderful Medicine, that

EVERY DAY AN INCREASE IN FLESH AND WEIGHT IS SEEN AND FELT.

THE GREAT BLOOD PURIFIER.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin diseases, Eruptions, Fevers, Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent powers to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure,—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney and Bladder Complaints

Urinary, and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick-dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back and along the Loins.

THE BEAUTIFUL HAND.

What object in nature, though nature be grand,
Can compare with a snow-white well-shapen hand;
Supposing, of course, the possessor to be,
A maiden with manners sweet, artless and free.
The eyes were much lauded by poets of old,
And long yellow hair was often called gold;
Yet I, though respecting that well-meaning band,
Love best to sing praises to a fair little hand.

Yes, poets may sing of soft golden tresses,
Which receive from the breeze its fondest caresses;
Of sweet ruby lips and laughing blue eyes,
Th t sparkle like diamonds, or stars in the skies;
They may sing of great heroes and patriots bold,
Of mountains and valleys and ruins of old,
That are seen 'neath the skies of a fair, distant land.
But I'll ever sing of the beautiful hand.

They are prompted to do this, thinking it the duty of all good citizens laboring under disabilities to place themselves in position to give their services to the State, when it may be to the interest of the State to require it of them.

Tennessee News Items.

Olive Logan will deliver her lecture on "Nice Young Men," in Nashville, on the 29th instant.

There was a snow storm in Nashville on the 22d instant. It is a rare occurrence to have snow so late in the season. One of the heaviest snows, however, seen in this country was that which occurred March 15, 1843. It fell to the depth of 18 inches.—*Union and American.*

Labor Statistics.

In Denmark bricklayers, carpenters, etc., receive 70 to 75 cents for a day's work.

In Prussia common manual labor in agriculture is paid from 18 to 25 cents per day.

In Sweden, the average of an artisan in Stockholm and other large towns is fifty cents per day.

In Switzerland, factory operatives receive on an average, for men, 40 cents. Printers get 45 to 80 cents.

In Norway Agricultural laborers receive from $1 25 to $1 75 per week. Printers receive 50 to 80 cents per day.

In Portugal, field laborers receive 15 to 22 cents per day. Skilled mechanical labor is paid from 25 to 50 cents per day.

In Austria the average wages of the agricultural laborer are reported at only $20 to $30 a year.

In Belgium the wages of workingmen living in the country vary from thirty to forty cents a day. In the manufacturing districts they average sixty cents.

In Russia agricultural laborers receive an average compensation of 65 cents per day, which has to keep them in holidays, and these days in Russia number 163, leaving only 202 working days in the year.

In Paris blacksmiths receive from 60 cents to $1 50 per day; boot and shoemakers from $1 to $1 20; carpenters, $1 20, working 12 hours; and printers $1 to $1 20 a day, or 10 to 12 cents per 1,000 letters for piece workmen.

In Italy skilled workmen receive 30 to 60 cents per day for 11 hours. Printers receive from 20 to 60 cents per day. At Rome the ordinary wages of the workingman are 35 cents per day.

Fundamental Elements of Agriculture.

All wet lands should be drained.

Sandy lands can be most effectually improved by hay.

Shallow plowing operates to impoverish the soil, while decreasing productions.

All grain crops should be harvested several days before the grain is thoroughly ripe.

The chopping or grinding of grain to be fed to stock effects a saving of at least twenty-five per cent.

Thorough preparation of land is absolutely necessary to the successful and luxuriant growth of crops.

Deep plowing and subsoiling greatly improve the productive powers of a variety of soil that is not wet.

No land can be preserved in a high state of fertility, unless clover and the grasses are cultivated in the course of rotation.

Abundant crops cannot be grown on the same land in succession unless fertilizing matter is returned to it in equivalent proportions to those taken away.

All lands on which clover or the grasses are grown must either have lime on it naturally, or it must be artificially supplied in the form of stone lime, oystershell lime, or marble.

☞ The Tichborne case having terminated in the defeat of the supposititious Sir Roger, and the effort to revive the Mordaunt divorce suit having failed on account of the continued insanity of the defendant the British courts have obligingly supplied an entire new sensation to meet the unsated public appetite. The story on which this latest scandal is founded is a remarkable one. It seems that from 1859 to 1862 there resided in London a public prostitute, who during all that time was engaged in plying her avocation upon streets and at the public resorts in the most shameless manner. In this way she met a wealthy baronet, named Sir Travers Twiss, who became enamored of her, and in the summer of 1862, having sent her to Dresden, he rejoined her there, and they were married. Subsequently, Lady Twiss was twice present at the drawing-rooms of her majesty Queen Victoria, and yet it does not appear that the prince of Wales remembered her! But in April last, after, it is said, frequently extorting hush money from Sir Travers, a lawyer named Chaffer, who had known her as a street-walker, exposed her antecedents; and now the doting husband has brought a libel suit against him. To diversify the scandal, the heroine has mysteriously disappeared, and it is pretended that there is no clue to her whereabouts. Altogether the sensation is quite as promising a one as its immediate predecessors, and the revelation that a *nymph du pave*, and a habitue of Cremorne Gardens, had actually penetrated the divinity that doth hedge about a queen, is most charmingly awful.

Financial Items.

More than $500,000 was put into the savings banks of Massachusetts, upon the average, every week in 1871.

A bill before the Illinois Legislature, called "The Credit Foncier Bill," has for its object the formation of companies, with a capital of not less than $50,000, whose business it shall be to borrow money in large sums of eastern, foreign or other capitalists, and loan in small sums on mortgages or trust deeds to shareholders or others. It is claimed that men of small or even liberal means, by uniting in this manner with others, could save 2 to 4 per cent., besides avoiding the large commissions charged by local money lenders.

Commercial Items.

The commerce of the Mississippi Valley amounts to two thousand millions of dollars per annum.

The stock of iron throughout the world at the present time is estimated to be much below the prospective demand.

The weekly consumption of cotton in Great Britain in 1861 averaged 60,000 bales, of which 35,000 bales were raised in this country. In the last two years the cotton-consuming capacity of Great Britain has increased 10 to 15 per cent.

The iron exports of Great Britain to the United States in 1871 amounted to nearly $38,000,000 in value, being more than one-half the iron exportations. This statement does not include the hardware trade, which foots up near $3,500,000.

SIXTEEN YEARS OF SUCCESS.—In 1856 the now famous Mustang Liniment was first made known to the public by an extensive system of advertising. From that time to the present, the demand for it has been steadily increasing, until it has taken the lead of all embrocations, lotions, ointments, and other external remedies, imported or domestic, ever introduced into the American market. In the most celebrated racing and trotting stables, in the establishments of stage and city car companies, and in the stables of private gentlemen, it is the only recognized cure for such diseases of the horse as require outward treatment. Nor is it less valuable as a local application for some of the most distressing complaints to which man is subject. Rheumatism, stiffness of the joints, neuralgia, sore throat, tumors, wens, earache, toothache, yield to its pain-subduing, counter-irritant properties, and burns, scalds and cuts are healed with incredible rapidity under its operation. march18-deod1w&w1t.

SLEEPLESSNESS.—Sleeplessness comes from poverty of the blood, the irritability of the brain tissue consumes the nutrition of the blood too rapidly. Sedatives and narcotics may relieve for a time, but as they do not remove the cause they do not cure, soon lose their power, and sleep is sought for in vain. The only true remedy is that which builds up the system, renews life action, strengthens the brain, and gives to the blood those materials lost by a diseased condition. Such a remedy may be found in Dr. Price's Blood Enricher, better in the long run than all the sleep producing agents known. Druggists have it for sale.

ATMOSPHERIC POISON.—The spring sun calls up something besides the flowers and grasses. It evolves from the damp earth turbid rivers, stagnant pools and black morasses, the gaseous provocatives of disease. From the offal and garbage of unclean cities, too, it exhales an effluvia destructive of health and vigor. Periodic fevers of various types are now raging with unusual virulence in various parts of the country, and there are complaints from all quarters of a singularly unhealthy spring. What is to be done in this emergency? The answer is simple and to the point. Strengthen the body. Weakness predisposes the system to disease. Commence at once a course of the most genial of tonics, Hostetter's Stomach Bitters. Be assured that the germs of epidemic and endemic fevers will never infect the physique that has been fortified and regulated with this glorious vegetable restorative. A moist atmosphere aggravates dyspepsia, and all diseases of a billious type, and the sudden thermometrical changes common at this season, are a severe trial even to strong constitutions. There is but one way of combatting these deleterious agencies, and that is by invigorating the body, and imparting a healthy activity to all its functions. The only specific required for this purpose is Hostetter's Bitters. Of all vegetable tonics and alteratives, it is the purest and the best. Its medicinal ingredients include all the juices and extracts of the most approved tonic, anti-billious and antiseptic products of the Botanic Kingdom, and they are combined with a stimulant far superior in quality to the alcohol used in preparing the tinctures and extracts of the "regular" pharmacopœia.

DEAD MEN TELL NO TALES:—If they did, anathemas against the depleting lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "*Preserve and Regulate, not destroy,*" and no remedy of our day is so entirely in harmony with this philanthropic logic as Dr. Walker's Vegetable Vinegar Bitters. In this powerful, yet harmless restorative, dyspepsia, bilious complaints, and all diseases of the stomach, liver, bowels and nerves, encounter an irresistible antidote.

THE BONDS OF GEORGIA.

Official Notice to the Bond Holders.

An Act

To protect the people of the State of Georgia against the illegal and fraudulent issue of bonds and securities, and for other purposes connected with the same.

Whereas, Divers bonds, purporting to be bonds of the State of Georgia, and divers bonds bearing the indorsement of the State, have been issued and put in circulation by Rufus B. Bullock, late Governor of said State, and divers bonds issued prior to his administration, have been negotiated by him: And whereas, it is believed that a large portion of said bonds have been illegally and fraudulently issued and negotiated, and the extent and amount of said bonds so issued and negotiated is unknown to this General Assembly.

Section 1. Be it enacted by the Senate and House of Representatives of the State of Georgia, That there shall be a committee appointed of three, one by the President of the Senate, and two by the Speaker of the House of Representatives, who shall have full power and authority to examine and ascertain the number of bonds which have been issued as hereinbefore recited in the preamble of this act, and the aggregate amount thereof; and so far as they have been sold or hypothecated, by whom sold, the amount of money paid, to whom paid, when paid, for what purpose negotiated, and all other facts connected with the history of said bonds, and to report the same to the General Assembly at its next session.

Section 2.
